

Theia Technologies' ISO 9001:2015 Certification Renewed

Wilsonville, OR – October 16, 2020

Theia Technologies today announced that their quality management system has once again been certified to ISO 9001:2015 standards by DQS Inc following a successful audit. The registration is effective October 15, 2020 and is valid through December 11, 2023. The registration scope includes the design, manufacture and sales of optical lenses. According to DQS Inc., through an audit, and documented in a report, it was verified that Theia's management system continues to fulfill the requirements of the ISO 9001:2015 standard.

According to Jeff Gohman, President of Theia Technologies, "Our successful certification renewal demonstrates our continued commitment to quality, both in our design and delivery of high performance optics to our customers, but also in how we manage our suppliers to procure consistently reliable components for the manufacture of our lenses. "

About Theia

Theia Technologies provides high quality 4K and megapixel lenses for machine vision, intelligent traffic systems, video surveillance and other applications. Their patented, award winning Linear Optical Technology® corrects barrel distortion and improves image resolution over typical wide lenses. Theia lenses are designed and marketed from the US, and manufactured to ISO 9001:2015 standards. Theia also provides optical engineering and custom design services. Theia has several issued and pending US and foreign patents for lens technologies. For more information, contact Andrea Van Landingham at +1 (503) 570-3296, or visit www.TheiaTech.com.
